

Filigree Supply List

Lap 54" x 70", Twin 70" x 86", Queen 86" x 102"

A unique variation on a traditional Snail's Trail block. Instead of a four patch in the center, there are two pointy triangles giving you interlocking twists - a unique effect reminding us of filigree scrollwork. With the addition of the Corner Beam units between the Snail's trail blocks you have even more spikey interest!
